BAY ST. LOUIS, MISS., FRIDAY, OCTOBER 15, 1948

VOL. 57 — No. 42

SATURDAY, OCTOBER 16 IS REA DAY IN BAY ST. LOUIS

Observations... From Around Town

(BY JAY WHOZIT)

Bay St. Louis plays host to members of the Coast Electric Power Association, who will hold their 10th annual meeting at the Bay High School auditorium on Saturday beginning with registration at 7:30 A. M. . . besides their regular business sessions, there will be display booths by many electrical appliance firms and prizes for the members, so on behalf of the city's entire citizenship, we bid them welcome. . . On Friday from 5 to 7 and from 9:30 to 11:00 o'clock P. M. the booths will be open to (the people of) Bay St. Louis and Waveland—Prizes will be awarded at the various booths. . . Sunday was Homecoming at St. Stanislaus, and what a gala day it was, with the Rockchaws emerging the victors for the fourth consecutive time this season, by downing McGill Institute of Mobile by a score of 18 to 6. . . tonight they encounter stiff opposition when they meet Pica-yune on the local gridiron. . . If you're not already a member, remember you can now join the Chamber of Commerce for the small sum of \$12.50 per year, just one-half of what it used to be. The new president of the C. of C. is Ted Robin, a hard worker if we ever saw one, and with just a little cooperation from you we are sure Ted can do a lot for Bay St. Louis and Hancock County. . . last week's issue of the "Echo" dedicated to the Coast Electric Power Association, as a tribute to the progress it has made in the ten comparatively short years of its existence, was, in point of circulation, the largest ever published—5600 copies of 20 pages each, necessitating the use of nearly a ton of paper. . . Harry Cameron, city marshal of Pica-yune, Miss., who was gravely wounded, as a result of a gun battle this week with a negro at Escalante, is remembered locally by prize fight fans of some twenty years ago, when he participated in many lively fistie engagements in the old arena, which was located in the neighborhood of Fahey's Drug Store, along with such names as Big Boy Peterson, Sailor Johnson, the "Wallop-ing Wop", and many others. . . our condolences to Mother Marie Blanche of St. Joseph Academy, on the death of her father, Mr. Domingo Brisolara, who died last Thursday. . . Con. Bill Colmer will be in town on Saturday, when he will address the members of the Coast Electric Power Association at their meeting at the High School. . . St. Joseph Academy's Parents' Club will sponsor a spaghetti supper next Wednesday evening at the K. of C. Home on Main Street, so give your wife and family a treat by taking them out to supper, next Wednesday evening. . . voters will have five sets of presidential electors to choose from when they go to the polls on November 2nd. Two are pledged to the Republican ticket of Thomas E. Dewey and Earl Warren, and one each to the National Democratic ticket of Harry S. Truman and Sen. for Alben W. Barkley; the States' Rights ticket of J. Strom Thurmond and Fielding Wright; and to the Progressive Party ticket of Henry Wallace and Sen. Glen Taylor. The Wallace electors will be classified as independents. . . between 300,000 and 500,000 persons are expected to attend the State Fair in Jackson, this week.

Homecoming Day was celebrated at St. Stanislaus on Sunday, October 10th. The attendance of parents and members of the alumni association exceeded in number, that of any other Homecoming day celebration. . . The Alumni meeting in the morning was the most enthusiastic and most spirited that has been held in years. Dr. Marion J. Wolfe was elected President; Sam Cerniglia, Class '22, First Vice President; Peter P. Banville, Class '26, 2nd Vice President; Warren Carver, Class '29, 3rd Vice President. The consensus of opinion was to hold the meeting at approximately the same date as last year. Notice of this meeting will be sent out as soon as the Committee meets.

It was suggested that as many members as possible receive Holy Communion every second Sunday of the month for the repose of the soul of Brother Peter. Bay High Tigers Lose To Pass Christian Pirates By A Score Of 18 To 13

In a wild and breath taking ball game Friday night at St. Stanislaus Stadium, that was won in the last minute of play, the Pirates of Pass Christian whittled the Tigers of Bay High down to their size and then proceeded to skin them. . . It was a wide open offensive game with little being shown by either team on defense. The Tigers opened up for a quick score in the first period and converted to lead 7-0. . . Seemingly contented to rest on their laurels the Tigers let up and the Pirates roared to a score in the second period but failed to convert. At half time the Bay High team led 7-6.

At noon a barbecue lunch was served to over 400 visitors. . . Following the lunch a parade formed and made its way to the Stadium, where the game between McGill and the Rockchaws played before a crowd of 2000 people was the treat of the day especially as the Rockchaws went into the game as the underdog with a chance of possibly one touchdown. Stanislaus scored on the second play of the game. Other scores were made in the second and last quarter. . . McGill threatened several times but were held. Once on the Rock 5 yard line they were held for three downs a fumble on the fourth down gave the ball to Stanislaus. The final score was Stanislaus 18 McGill 6. Pica-yune will take the field against the Rockchaws tonight, in what will undoubtedly prove another thrill.

Tuesday, October 12th marked the anniversary or birthday of the Mississippi Congress of Parents and Teachers and was celebrated by the Central School P.T.A. . . Preceding the regular session of the organization a reception was held in the Home Making department giving an opportunity for the parents to meet the new members of the faculty and visit with all of the teachers. The large birthday cake made by Mrs. W. L. Bourgeois, decorated in blue and gold and bearing the dates 1900-1948, was out and served with coffee to the guests by the Home Making Class. . . At the business meeting plans were partly formulated for the Halloween program which is being sponsored by the association but the date and place will be announced later.

It was suggested that the Central School P.T.A. members entertain at an equipment show for the newly installed lunch room at Webb School on October 21 from 4 p. m. on and that each member would attend and bring a piece of equipment needed for the new lunch room. Mrs. Lewis Henderson reported that the mothers of the Webb

school have been giving voluntary service towards the promotion of the lunch room and have been alternating about doing the cooking. Between 25 and 30 children are fed each day. . . Mrs. B. F. Floyd suggested a few families sending their children to Taylor School where milk will be furnished by the P.T.A. . . Mrs. C. C. McDonald who was in charge of the program talked briefly on the importance of the theme for the year "Education for Home and Family for World Understanding" and exhibited the Parent Teacher Magazine as a source for material on the proper education for children. Mrs. McDonald had sent out questionnaires to the parents along this line and most of them had been answered and quite a representative group of mothers were present. . . The primary room, Mrs. Celine Ashcraft teacher, won the attendance prize. . . Mrs. C. A. Brath, membership chairman reported that Mrs. Ashcraft's room was the first to attain the 100 percent membership; the eighth grade, Miss Alma Parker teacher, came second and the second grade, Miss Luvenia Saucier teacher, was third in the race.

TEEN AGE SATURDAY NIGHT ACTIVITIES DISCONTINUED TEMPORARILY

A meeting of the Adult Board of Advisors, the Officers, and the various Committee Heads of the Teen Age Club, was held Wednesday night at the Bay High Gymnasium. . . At the meeting, it was decided that the regular Saturday night gatherings of the Teen Agers be discontinued until the new home of the club is completed. The work on the building is progressing very rapidly. It is not definite, but it is hoped that the building will be completely finished within the next five or six weeks. The reason for the discontinuance of the Saturday night gatherings is because of their interference with the school activities. . . The Officers and the Committee heads will continue to have their regular meetings until further plans, so that all Teen Age activity can be resumed as soon as possible after the new building is completed.

St. Stanislaus Rock-A-Chaws Defeat McGill Institute In Homecoming Game

The Rockchaws of St. Stanislaus bowled over the McGill High Eleven 18-6, Sunday afternoon to chalk up their fourth win of the season against no defeats. . . Before the game was two minutes old, Levy Ladner electrified the huge homecoming crowd by cutting over tackle and galloping 48 yards for a touchdown. . . In the first half McGill carried the ball to the Rock 28 and lost the ball to the Rocks on downs and came right back to go to the Rock two yard marked. On the next play Duke fumbled on the one foot line and David recovered for Stanislaus. The Rocks threatened another marker when Dolan recovered a McGill fumble on the 25, The Rocks pushed to the visitors yard line, but were held. Seconds later the Rockchaws bounded back and raked up their second marker to lead 12-0. . . On the second running play after the half time kickoff, L. J. Uhle hit over right tackle and got into the

secondary, picked up his interference and marched 52 yards to put the Rocks into a comfortable 18-0 lead. . . In the fourth quarter the weight of the visitors began to tire the Rocks, and McGill was able to punch over for a touchdown. . . In the first down department the McGill eleven led 14-5 but the Rocks led in total yardage gained 225-192. . . Scoring touchdowns for the Rocks were Joe David, L. J. Uhle and Levy Ladner. . . CHARACTER

Our school has a wonderful name: "The School of Character." What is character? It is the life governed by principles and attitudes. Good character of course, is life dominated by right principles; bad character, life dominated by wrong principles.

How is good character developed? By doing the right thing in the right way with the right motive. We strengthen our character gradually, by doing well our ordinary, every day duties according to the rules of Christian conduct the rules contained principally in the ten commandments and the eight beatitudes. We build a strong Christian character by doing small things well for the love of God and in order to please Him.

But if we are to succeed at this, we must first of all have right ideals, the right goals to aim at in life. Many people have made the great mistake of choosing wrong ideals; their lives have been largely wasted because they choose the wrong thing to live for. Many have made tragedies of their lives because they choose as the goal of life great riches, fame or power over their fellows. They mistakenly thought that in these things lay happiness; that unless they attained them their lives could not possibly be successful.

Here they have made a great error; for these are false goals and do not bring lasting satisfaction. As we learn in our primary religion lessons, God did not create man for these things, but "to know, love and serve Him and to be happy with Him in this world and the next." The only true goal of human life, therefore, is knowledge, love, and service of God and of our neighbor, who is His image and representative. The great psychologist, Rudolph Allers, has said it well: "At bottom there is only one ideal: doing one's job in life—involving self-surrender and service; in the same way there is only one virtue: humble, willing conformity to the will of God."

Here, then, in brief, is the 'secret' of developing character: in all our acts, be they prayers, studies, meals or games, to be guided by this question: How does God want me to do this?

If you guide your daily actions by this principle not only will you develop into a strong, happy man who will enjoy the real satisfaction of a good life for himself, but you will contribute to the welfare of your family, your school, and your country; and above all, you will give glory to God who made you—Brother Berchmans, St. Stanislaus Rockchaw.

Fire Prevention Program Staged By Students Of Bay High School

In keeping with National Fire Prevention Week Bay High School students under the direction of Mrs. Ellis Guillory, put on a Fire Prevention program on Friday morning of last week.

As a build up to the program Mrs. Guillory reminded the audience of the seriousness of fires and the importance of fire prevention. One of the facts brought was that every minute of the day someone's home throughout the country goes up in flames. She then gave the following rules for prevention of fires: Keep houses and yards free from rubbish; avoid playing with matches; warn children against doing so; never carry matches in your pockets; learn the location of the nearest fire alarm box to your home; so you can turn in an alarm if the home or a nearby building catches fire; keep away from burning buildings so as not to interfere with the work of the firemen when putting out a fire; put out picnic fires immediately; be familiar about laws regarding bonfires; never build any fire with kerosene; be very careful of fires in the woods.

A one-act play "How to Prevent Fires" was given by Myrtle Cook, Teddy Morel, Anna Jean Ladner and Burge Bankston. This was well done and carried a lesson of what carelessness can do toward destructive fires.

Mrs. Carl Smith's Girls Chorus made its initial appearance in public.

G. H. Lehleitner Talks On Hawaii At Main St. Methodist Church

G. H. Lehleitner of New Orleans and Waveland gave a talk before a representative group of men and women at the Main Street Methodist church on Sunday evening, on Hawaii from a standpoint of its right to statehood.

Mr. Lehleitner prefaced his talk by saying there is something we can do to help Hawaii obtain her statehood and it is our duty as citizens and our Christian duty to do it.

Hawaii, he said, had petitioned the United States repeatedly for admission and had been promised admission as she qualified. "If we are to measure her qualifications for statehood by our yardstick let us look at her school system," he said. "The Territorial Board under which the schools operate has bought about a high standard of education. All schools, large and small have the same material modern conveniences. All teachers are paid the same salaries. All children, five and over, are compelled to attend school." And, he added, "for years the people from the west coast have sent their children to Hawaii to school. Her University is above most in the United States."

Mr. Lehleitner said that Civil Administration in Hawaii is of a high type, and has more progressive ideas than is usually realized. "When a crime is committed," he said, "the criminal is tried, and the judge is forced by law to give him the maximum sentence. He is then taken before the clinic for Criminology and his case is gone into, to find some physical or mental reason for his being a criminal. The clinic recommends a parole, a lighter sentence or treatment in an institution and usually the Board of Pardons 'accepts the recommendation.'"

"Though Hawaii has only one seventh of the territory that Mississippi has," the speaker said, "and

only one eighth of this is cultivated yet the pineapple and sugar industries is of great value to the United States." "Here again is an unfair attitude to Hawaii when 97 percent of her sugar must be sent to the United States to be refined."

"With one fourth of the population of Mississippi, Hawaii pays 20 percent more Federal Taxes and yet has no voice in Congress. Dress this up as you may it is still Taxation without Representation," he continued, "and is just as distasteful as it was in 1776."

"Hawaii should be our forty-ninth state," Mr. Lehleitner said, "because it is her due, because she is qualified and because she has been promised statehood and it is our Christian duty to help her get it."

The talk was sponsored by The Woman's Society of Christian Service and was the first of their study course on America's Geographical Frontiers. The second will be given on Friday, of this week at 3 p. m. at the church and Mrs. C. C. McDonald will talk on Alaska.

"From where I sit"
... by Joe Marsh

Ben's Chickens Take A Hint!

Ben tried almost everything to get his hens to increase production. He fed them, he gave them mash, heat and lighting, even radio in the hen house.

"Finally," says Ben, "I told 'em the market prices for dressed chickens. Now they are laying 'fit to bust!'"

Ben's kidding, of course! But it's true that often a note of warning will herald a "bust." The brewers have found that out, with their program of "Self Regulation," by which any dealer selling beer, and failing to maintain decent surroundings, is warned to "clean up" or face the consequences.

Generally that warning gets results. But if it fails, the brewers call on the proper authorities to close the place up. Drastic action (and not often necessary) is taken from where it all, it's why the places selling beer to-day are a credit to their communities! The Brewers' "Self Regulation" program does work in the counties where the licensed sale of beer has been voted out, however.

Captain of Industry

Meet Butch—Pres., Treas., and Field Force of the One Man Odd Jobs Co., Uninc. Take a good look at him—for Butch is America.

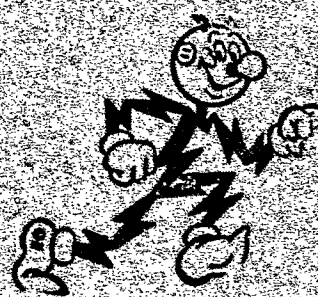

Butch wants a bicycle. Lots of lawn and lemonade and baby-sitting lie between Butch and that bike, but we're betting on the boy. He has energy, vision, and our national habit of working hard for what he wants. He's American business—in miniature.

There are many names for Butch's philosophy. You can call it Free Enterprise, Opportunity, Democracy, or Capitalism, if you want.

But, whatever the name, America owes it much. For our most valuable natural resource lies in the ambition and initiative of Americans like Butch.

As great publications have grown from the dreams of young men with old hand-presses—and great industries from the products of grubby little cello workshops—the electric industry had small beginnings, too. Like our own company. A few men with vision strung the first small lines. People with faith risked their savings. Better and better service, at lower and lower cost, created more and more jobs—and carried the benefits of electric living to more and more people.

Free enterprise and hard work will bring Butch and his bike together. They are what built America and the American way of life, which is the highest standard of living in the world. No nation on earth has found a satisfactory substitute for that combination.

SHORT SNORTS ON STATES' RIGHTS

By Jimmy Arrington
Collins, Miss.

From the way he is tumbling around, I don't believe President Truman ever played football and learned the lesson of cooperation and team work, for if he had, he would not be running around the country talking about how worthless his team mates in the 30th congress were. He'll have to admit that they were pretty good "blockers."

Speaking of football reminds me of the time back in the dirty thirties when us folks were eating rab-

bits in the summertime as a hang-over of the Hoover prosperity, and in order to get our minds off of empty stomachs at home and empty heads in Washington, the football bowl mania spread over the nation.

Miami got the orange bowl, New Orleans the sugar bowl, Dallas the cotton bowl, et cetera. In keeping with the trend of the times, us folks down in this part of the country started yelling for us a bowl game. We took it up with our chamber of commerce (we didn't have much commerce or vice versa) but we took it up with them anyhow, and inasmuch as the WPA was the only industry we had, they decided to call our game the "Relief Bowl."

One team selected was composed of men not on the WPA and the other of WPA'ers. The only trouble we had was that the game was delayed three weeks as they couldn't find eleven men to make up the non-WPA team. They finally ran in a couple of republican ringers, and the game was played. I'll never forget it.

The first half went off without anything of consequence happening except one of the WPA players saw some sweat and fainted and had to call time out, but the half ended without either team scoring.

I was on the non-WPA team as I guessed wrong and didn't vote for the right congressman that year, but I didn't play in the first half.

At the beginning of the second half our coach called me and said, "ZimoZavitch," (that was my foot ball name), "get in there and see what the trouble is."

Well I got in the game and it didn't take me long to find the trouble. The WPA game was using a tricky formation on us. They called it the "New Deal" formation—that was where the quarterback ran around in a circle and both ends

drug the ground. It was rather confusing as they didn't know where they were headed for and we didn't either.

With only a few minutes left to play it appeared the game would end in a scoreless tie, but it then fell my lot to interpret one of them shovel passes the WPA'ers had been leaning against, and I headed down the field.

Just about the time I reached pay-dirt, the most embarrassing thing happened to me as I felt my suspender let loose their responsibility.

I do not know whether you have ever tried to run down a football field with a football in one hand and your pants in the other, or not, but it takes some fancy foot and hip work to do so.

Kind of like Harry S. trying to run, as a Democrat while carrying all the crackpot proposals of the minority bloc, the Commies and the fellow travelers.

However I made the touchdown, because every time one of them WPA players would start to tackle me I would let my suspenders slip and shout around "and say, 'You wouldn't hit a man with his pants down, would you?'"

But I'm afraid Harry S. ain't gonna be as lucky as I was, 'cause the American American people are going to hit him from every direction with their ballots come November 2—pants down or not.

KEESLER FIELD DEFEATS BAY TIGERS

On Friday night the Bay Tigers Football Team journeyed to Biloxi to play a return game with the Keesler Field Flyers. Throughout the game, the crowd was thrilled with the stubborn defense of both teams for it kept all wondering who would cross the goal line first. As the first half ended without a score. In the third quarter the Keesler Field Flyers rallied with an aerial offense and scored the only touchdown of the game. Bay St. Louis made several attempts to score after this but failed to reach pay dirt, losing the game 6-0. The same score by which the Tigers defeated the Keesler Field Flyers in the game here.

Coast Electric Power Association Operates 1057 Miles Of Electric Lines

The story of the development of the Coast Electric Power Assn., is a story of progress in this area. The Association is, contrary to the impression of some a local organization incorporated under Mississippi law, its assets are the property of its members. It has been financed by loans from the Federal Rural Electrification Administration but the Federal government does not construct the electric lines and holds no stock in the organization.

Through June 30, the Association had received loans in the total amount of \$1,321,000.00. Of this amount \$961,259.70, has been advanced and the difference of \$359,740.30 is available for additional line construction. On October 14, 1948 a construction contract will be entered into calling for the construction of an additional 124 miles of electric lines to serve approximately 350 new members. The Association now operates 1,057 miles of electric distribution line in Hancock, Harrison and Pearl River Counties, serving 3,733 members. These members are using an average of 91 KWH per member per month as compared with the figure of 73 KWH per farm in the state.

It is the intent and desire of the cooperative to provide with electric service all those residing within its service area who are without service. To complete that program, to construct a new headquarters building and to install two-way radio communication equipment, which will permit improvements in service to members will require additional loans of approximately \$250,000.

When the cooperative was organized in 1937 and received an initial loan in the amount of \$87,000, no one could foresee that in ten years more than that amount would have been repaid and that more than 20 times the original amount would be required to serve all those desiring service. Incidentally, of the \$1,321,000.00 borrowed, \$97,808.86 has been repaid, \$32,969.39 before it was due which gives the Association a "cushion" of credit in that amount against its long term debt. As is customary in such matters, when the Assn. was incorporated, a "ceiling" was placed on the amount it could borrow. That "ceiling" has been reached and before the cooperative can borrow additional funds to finance its further expansion the affirmative vote of a majority of the members is necessary to authorize the increase in the borrowing powers. It is the hope of the Board of Directors and manager that this authorization will soon be obtained.

Rural electrification progressed at a record rate between June 30, 1946 and June 30, 1947, with almost 400,000 farms hooked up to power lines for the first time.

ORTIE THEATRE
SUNDAY - MONDAY
"TARZAN AND THE
MERMAIDS"

Tarzan, Edgar Rice Burroughs's ape-man character, plunges into tense drama in Sol Lesser's current production, "Tarzan and the Mermaids," which RKO Radio releases. Combining adventure with romance, the hero of African adventure is involved with an ambitious coastal tribe.

Johnny Weissmuller and Brenda Joyce portray the stellar roles, and Linda Christian is featured.

"Tarzan, on a fishing trip, is astonished when he snares a 'mermaid' in his net. She is a naive girl fleeing from a petrounial to a living tribal god. The men of the tribe reclaim her after a battle. Tarzan and Jane follow in a plan to rescue her and they discover that a brutal white man is masquerading as the god and is ruling the natives through fear and superstition.

How the unconquerable hero manages to save the girl and to overthrow the "god" in order to bring peace to the people and happiness to the "mermaid" made many thrilling situations in the plot. The aquatic scenes are spectacular.

"Tarzan, a Christian is rescued as the persecuted 'mermaid' John Laurence is a jungle postman, and other players are Fernando Wagner, Edward Ashley, George Zucco and Andrea Palma. Robert Florey directed and Carroll Young wrote the screenplay based on Edgar Rice Burroughs' character.
